Comments	The site proposed will not have the infrastructure required to support this size of business. The increase in traffic alone (to a road system struggling to cope with residents) would create congestion particularly up to Arundel which sees regular congestion even now. As for the aesthetics the area is relatively flat with little to no tree cover meaning it would be visible throughout all the surrounding villages and ruin the landscape seen from the downs and Arundel. It is my belief the proposed structure would be better suited to an area already served by a robust road system and an area a 50m structure would not be as intrusive.
