| Comments           | I object to this application. The volume of trucks on the road around here will be detrimental to the overall enjoyment and environment of the surrounding area. I also am concerned about the impact on the natural environment for animals and delicate habitats. This will be an eyesore on the surrounding beautiful countryside. People travel from miles to see the Downs - this application will change the landscape negatively. Overall, I understand the need for these places, but not here. The impact on the local community will only be detrimental. |
