Type of Comment	Objection
Comments	I write in connection with the above planning application. I wish to object strongly to the development of this energy recovery and waste sorting and transfer facility in this location. There would be an unacceptable intrusion in the form of noise nuisance, general disturbance, odour, and a visual impact. We already have an intolerable amount of odours coming from the other waste plants and recycling facilities in the area as it is. The scale of the works means that the proposed facility has an enormous impact on the surrounding areas/houses including a tremendous visual and odorous consequence of which would have a huge effect on the development and the character of our neighbourhood. Please take our objections into consideration, this site should never of been considered for this location.
