I object to the impact on our local environment, the increase in transport to an already heavily impacted area already overloaded and when the focus should be on climate and the environment is this being applied for ? Air pollution at high levels already, incinerators are toxic and a huge blot on the landscape of the South Coast. The current lorries using Walberton and surrounding villages as 'rat runs' ignoring bans on through HGV traffic is increasing. Pushing through applications at a time when the focus is on the pandemic diverting attention away from local issues - appalling. I object. No - this is not a suitable site for this proposed monstrosity.
