Comments	While I don't object, in theory, to the notion of a waste recycling and energy recovery facility on this brownfield site, I strongly object to the new proposal put forward. I object on several grounds of which the mains reasons are; Essentially the new plan is just too big. It will be detrimental to the visual appearance of the area and change the skyline and landscape negatively as it's not in keeping with the area being as close as it is to the historic town and skyline of Arundel; it's proximity to the South Downs National Park and be a blot on the landscape for local residents. The existing road system surrounding it is already unable to cope with the current level of traffic and the increased traffic to and from the site will make this untenable for all road users; commercial, commuter and domestic traffic and make it even more unsafe for walkers, riders and cyclists.
