Comments	<input type="text" value="I object to Grundon and Viridor's proposed incinerator for the following reasons: Visual Impact: it will be detrimental to the wider area over a considerable distance. The beautiful view from Arundel Castle will be abhorrent. Not good for tourism in the area, they won't come back. Emissions: unknown impact from gas, smells or other noxious substances in surrounding areas. Traffic impact: hundreds more huge lorries each day on roads, some coming from well outside West Sussex. Road access: Church Lane is wholly unsuited to this type of traffic as it is a narrow unclassified road at the heart of Clymping village. Proximity to existing and proposed residential housing. Safety: in the event of a plant breakdown, fire or other catastrophic event. Conclusion: this is a totally unsuitable site for a plant of this size, scale and type of operation. This monstrosity is wholly unacceptable in a peaceful countryside/village setting. The area will become a manic industrialized hub. I didn't move to Clymping 2 years ago to live next to this. I moved for the beauty: the sea, the countryside, the history and the views."/>
