Comments	As ward member for Arundel & Walberton on Arun District Council. I believe that consultation has been affected by the CV19 pandemic and as such there has been detrimental effect in residents learning of this application. For the sake of good governance and transparency I believe WSCC should extend the consultation so that residents have a fair chance in commenting. I believe an extension of up to 8 weeks would be seen to be fair and would allow all People with opinions to make their comments.
