Comments	This proposal is horrendously out of scale and will have a disastrous impact on the surrounding area in just about every way imaginable. We cycle through this area on a daily basis and can see first hand the degrading effect the existing HGV use has on the surrounding roads. This area already feels precarious - noisy, too much road traffic, too much waste by the roadside, too much ill-considered industrial use etc. If this development is allowed, we feel that the open and rural nature of the area will be irretrievably lost.
