Comm	nent for planning application wSCC/036/20
Application number	WSCC/036/20
Name	Lisa May
Address	Tomaccio House, Skylark Way Barnham
Type of Comment	Objection
Comments	I strongly object to this planning proposal due to the visual and environment impact it will have on the surrounding countryside and coastal areas. The chimney size will blot the landscape for miles around, having an adverse effect on the much needed tourist trade. This has been submitted under the blanket of a global pandemic and has no place in this area. It will negatively affect property prices for local residents. This plant needs to be places in a remote location, away from residential and tourist areas where its impact will not be felt by those living and working around it. Please do not ruin our local area with this appalling, unsympathetic application. It will also have an untold health impact on our communities.
