Comments	<input type="text" value="While the idea of an energy recovery service is not a bad thing, in this application it is in the wrong place. This huge site would be a blot on the landscape particularly as it is so close to the South Downs National Park. Also to plan an enormous amount of housing near the site seems wrong. It will put a big strain on an already overcrowded part of the country. I would urge the council to deny the application."/>
