1. I would like to voice my reasons why the proposed planned development is a good thing
2. Professional development opportunities. The new development of the facilities has the potential to offer new opportunities for progression and career development, whilst offering improved job security
3. Job creation. There will be approximately 80 full time jobs at Ford
4. The environmental and economic benefits of treating waste at these facilities e.g. ensuring diversion of non-recyclable waste from landfill, generation of renewable energy, moving waste further up the waste hierarchy etc.
5. Providing our valued customers with continuity of service
6. Significant investment in state-of-the-art waste management facilities
7. Providing much needed waste management capacity for West Sussex and surrounding areas
