Comment for planning application WSCC/036/20	
Application number	WSCC/036/20

Type of Comment	Objection
Comments	Due to the scale of this building is completely out of context with the coastal plain. It will become eyesore when viewed from the south downs. The highway implications for a higher volume of traffic would be catastrophic for already congested roads. The process proposed is a downgrade to the complex already agreed, this also has a worse affect on the environment.
