Comments	Extremely disappointed knowing how many years this has been discussed that the size has increased and no consideration for the land or environmental effects could of easily built in a more discreet way and using much more reusable material and environmentally friendly. Locals could of been utilised to look at the benefits and cons and discuss these. Feel all pushed through due to Covid-19. Also transport already approved? So feel extremely disappointed as a local to feel we don't have a voice or a right to speak about this. I was born and raised here and feel we could of been contacted and asked for input. New homes due here and crematorium etc the area was set for a smaller incinerator when Peter was alive at Viridor and feel due to government rush and need? This is being pushed through without a thought for anyone or anything. Must be less built up areas where this can go? And the Council must own land for such? Extremely disappointed and how I feel this has been fast tracked
