Comment for planning application WSCC/036/20

Application number	WSCC/036/20
Name	Sue Wallsgrove
Address	13 Barnfield Cottages Arundel Road, Fontwell
Type of Comment	Support
Comments	I support this application as we as a Country cannot keep shipping our rubbish to Third World Countries, this appears to me to be a state of the art recycling facility, which will negate the need for land fill, as we are running out of these sites. It will also produce energy for homes and assist the building industries. The particles that are sent into the atmosphere a a tiny proportion of what already exists. I am sure that this area will be screened by large amount of trees which will enhance the environment.
