Type of Comment	Objection
Comments	To big in this rural setting will dominate the surrounding areas and villages. All settlements form Littlehampton eastward will suffer from the emissions from this facility as the are in the line of the prevailing winds. A similar facility has ruined Newhven as they tend to be hideously ugly and totally dominant. My objections are; 1. Out of character with surrounding area. To large 2. Health. Could be detremental to the health of those living to the east of the facility 3. Highways. Increase of heavy vehicles on the small country roads leading to the facility.
