Comments	Visual impact is unacceptable in such a lovely area it will ruin the village. The traffic is already a nightmare in this area the roads are wholly unsuited to any extra traffic let alone large lorries. What emissions are going to put onto our environment and the idea of such a huge plant and potential impact of any fire. Look what we have seen in Lebanon with a huge explosion today. It is totally unacceptable to be building such a huge ugly and dangerous building in such a lovely area
