Objection

Barnham and Eastergate Parish Council has looked at the application WSCC/035/20 as a Parish Council closely connected to the area of the site for this proposed Incinerator. Having examined many of the objections already lodged, and in particular those from Walberton Parish Council and Ford Parish Council, this Council wishes to submit an objection that broadly supports the majority of the points made in both those submissions. In addition, whilst the Council does not disagree with the need for such a facility it does believe that the size of the facility now proposed (as opposed to the previously agreed much smaller facility) in such a rural, coastal plain location and close proximity to substantial

planned housing development that is poorly served by HGV suitable roads is unsuitable.
