Comment for planning application WSCC/036/20

Application number	WSCC/036/20
Name	Claire Lewis
Address	FARLINGS, AVISFORD PARK ROAD, AVISFORD PARK ROAD, ARUNDEL, BN18 0AP
Type of Comment	Objection
Comments	I very strongly object to this application and support the objections from Walberton and Ford Parish Councils. Arun's economy is largely based on tourism which relies on the visual beauty of the area, an imposing and industrial structure such as this will severely and detrimentally impact on the value of the landscape and it will diminish the character of the area. Ford has successfully created a well structured and deliverable Neighbourhood Plan to include 1500 needed homes, how can such an industrial structure be considered as appropriate so close to residential properties? The prevailing winds will lead to air pollution over the tourist centric town of Arundel and the South Downs, again diminishing their value to the wider economy. It is one thing filling the district with houses but at least that is in keeping with the area, this structure belongs in an industrial setting, not a residential one.
