Comm	nent for planning application WSCC/036/20
Application number	WSCC/036/20
Name	sabel Thurston
Address	Rose Cottage, Yapton Road Barnham
Type of Comment	Objection
Comments	The building applied for is too large for the rural situation; it will have a permanent, severe impact on the surrounding landscape, contrary to Arun Local Plan policy 7.5, including the upper coastal plain and the setting of Arundel. Being within close proximity to existing and planned homes, it will cause unacceptable levels of noise and HGV movements to the south. This facility may affect the Council's ability to increase and improve recycling rates and introduce zero waste policy as it should be doing. Recovery from waste should be lower down on the list of technologies for sustainable waste management.
