Comment for planning application WSCC/036/20	
Application number	WSCC/036/20
Name	Stefan Manaskov
Address	JACKSON WAY, 17, JACKSON WAY, LITTLEHAMPTON, BN17 7SF
Type of Comment	Objection
Comments	I object most strongly to this application going through. Not only is this going to have a negative affect on the local area but it is also going to have long term consequences on the health of everyone in the area suffering from the emissions that it will produce. We should in this day and age be concentrating on more sustainable forms of energy supply. This application should not be considered in any shape or form.
