| Name | Karen Knight |
| Address | ST. GEORGES WALK, 34, ST. GEORGES WALK, CHICHESTER, PO20 3XT |
| Type of Comment | Objection |
| Comments | I strongly object. Stop this monstrosity within our beautiful countryside. Views from South downs national park will be forever ruined. Hundreds of waste lorries trundling through our rural roads daily which can't cope as it is with the ever increasing housing developments within the area. These roads will be used daily by this new waste development, causing pollution. Already we have pot holes and road floods. The air quality we breath will be ruined with all the pollution which billows from the chimney. How can this be allowed to be built so close to surrounding residential areas. We should have the right to breathe fresh air instead of waste fumes and diesel fumes from thousands of HGV's through our surrounding villages. Re-think and stop! |
