Objection

Comments I am very sorry that this facility could be built so close to domestic buildings, to say nothing of the many prisoners in Ford Open Prison. Plus, I understand even more domestic building is planned for the

area. On top of this, our roads are already horribly congested and I fear, with so many massive vehicles driving to the site, they will become virtually impassable. I understand how difficult it is to find

a place to build such a facility, but this option seems to me to be quite wrong.
