## Comment for planning application WSCC/036/20

Type of Comment	Objection
Comments	The size is totally inappropriate for this rural area. The increase in traffic from heavy lorries cannot be accommodated on the road which it is anticipated will be used. There are already significant problems on this road due to parking, as it approaches the A27 roundabout outside Arundel. We are concerned about the way this planning application has crept in by the back door, following approval for a much smaller plant in 2013. We understand that there is a planning application for a sizeable housing development also on the old airfield site, which means that the proposed incinerator will be totally inappropriate and unacceptable. This proposed waste facility would be a massive blot on landscape, it would be seen from miles around. It will lower house prices in surrounding areas. It would also increase traffic in an area that already has problems with traffic (Arundel and surrounding areas).
