| Name | Christine Fuller |
| Address | 47 Jackson Way Wick Littlehampton West Sussex |
| Type of Comment | Objection |
| Comments | All the extra HGV vehicles using the site will congest the local area . This massive structure would be a blight on the landscape. The toxins from this would be extremely detrimental to the environment and residents in and around the surrounding areas. The frequent strong winds in this area would carry the toxins and fumes for miles. This whole matter had been dealt with in a very underhanded way, by not informing residents or giving them sufficient time to respond |
