Comment for planning application wSCC/036/20	
Application number	WSCC/036/20

Type of Comment	Objection
Comments	We believe that the increase in traffic generated by the waste lorries would create a noise disturbance and could be hazardous to pedestrians and other road users in the area of our home. The proposed building includes a chimney which will be imposing and cause an eyesore in our rural location. We are concerned that the proposed facility will generate odours and fumes that will be both unpleasant and potentially harmful to our health and the health of the surrounding countryside and wildlife. The airfield supports at-risk species, including swifts and skylarks, which may be adversely affected by the proposed facility.
