Comn	nent for planning application WSCC/036/20
Application number	WSCC/036/20
Name	Alison Griffin
Address	36 Tarrant Street BN18 9DN
Type of Comment	Objection
Comments	I would like to object. As a building the sheer size is hugely out of proportion to the surrounding areas and will have a massively detrimental effect on the residents. The roads are hardly equipped for the number of cars already using them, add to that the number of lorries expected to go to and from the site and it will be miserable for anyone having to drive in the area. Not to mention the air pollution from the site and the heavy lorries. The visual impact on the skyline will be overwhelming. Please don't let this happen
