Comments	Aside from the monstrous eyesore from miles around that this development will be, the additional haulage will add to congestion and their presence on our roads contribute to the eyesore. We should be striving to reduce the waste at source rather than building more ways of dealing with increasing waste. Since the Coronavirus lockdown, we have all seen the benefits of cleaner air. As lockdown begins to ease we should be looking at ways of keeping the air clean. This development will do nothing to help with this, quite the opposite. I was told by a very experienced aquarist that the secret to keeping fish is to not look after the fish, but to look after the water. We should be doing the same for our air.
