Comn	ient for planning application wscc/036/20
Application number	WSCC/036/20
Name	Maureen Mardle
Address	Montserrat House SKYLARK WAY Barnham West Sussex PO22 0FA
Type of Comment	Objection
Comments	The burning of commercial and industrial waste within a heavy populated area will create toxic fumes and gases which will effect the health and well-being of the population. The chimney height suggests this is true and it will spread the toxic exhaust mixture across the counties of Southern England. We moved into the local area from London for the cleaner air and now this will be poisoned by the proposed incinerator plant.
