Comn	nent for planning application WSCC/036/20
Application number	WSCC/036/20
Name	Clare Mossop
Address	31 St Mary's meadow, Yapton, Arundel
Type of Comment	Objection
Comments	It will be a huge structure completely out of keeping with the residential area which it will dominate. The pollution and noise from it combined with the dust and pollutants from the agreed concrete crushing plant will affect the health of residents for a wide area. Houses have already been planned and passed even closer to the site around the airfield which will be adversely affected. The noise from the existing plant can be heard from our house which is over a mile away.
