Comn	nent for planning application WSCC/036/20
Application number	WSCC/036/20
Name	Anthony de Claire
Address	PIGEONHOUSE LANE, 35, PIGEONHOUSE LANE, LITTLEHAMPTON, BN16 2BG
Type of Comment	Objection
Comments	The planning request for a facility like that proposed, should not be allowed to proceed until a thorougher and 'independent' risk assessment is undertaken and submitted for public consultation; this covering all Environmental Issues that can affect the immediate and surrounding residential areas of Yapton, as well as the potentially high impact on the Littlehampton/Rustington/East Preston area due the prevailing SW wind. There have been problems with similar facilities in the UK (e.g Barry, Vale of Glamorgan), where apparent lack of independent environmental risk assessment and subsequent council judgements has left adjacent residential ares with potentially dangerous emissions being wide spread by prevailing winds. In addition, a detailed 'disaster' recovery plan should also be made available for both public and specialist services consultation. Elected members of WSCC have the responsibility and must ensure the above safeguards are foremost in any decision making. process.
