Comm	ient for planning application wscc/036/20
Application number	WSCC/036/20
Name	Gaye Barns
Address	FORD ROAD, 51, FORD ROAD, ARUNDEL, BN18 9EB
Type of Comment	Objection
Comments	This waste facility is totally unsuitable for the location in the planning. The size and height will dominate the flood plain vista. The impact of the increased traffic ( HGV) on the local residents and local infrastructure will be overwhelming. The approach to the facility is on small lanes and with short cuts through residential area ( Ford Road) this will not be able to sustain the increase and weight of the vehicles. The proposed residential development on Ford Airfield will bute up against the facility. This will impose on the living conditions for the residents. There will be noise and fumes that impact on residents. As the emission from the chimney will and is unknown there is the possibility of noxious discharge into the environment via the air. Visually this facility will be overwhelming and totally dominate on the skyline. No one will be able to escape this blot on the landscape.
