Comments	We used to live near an incinerator in North Hampshire and had to endure the fallout of smuts from the chimney for many years. Less than a year ago, we moved to a brand new house in Barnham. To find out now that, having sunk our life savings into our retirement home near the sea, a huge incinerator is to be built nearby, belching out toxins is absolutely intolerable. Please do not allow this to be built so close to residential areas. Burning toxic plastics etc. is extremely bad for both the eco-system and human health
