Date: 06 August 2020 22:56:30

Dear Sir,

We are writing to object to the above planning application. I list below our reasons: Please consider these issues?

- Effect on landscape - the height of the facility will be an eyesore and obliterate the views;
- increased traffic and hgv lorry traffic on already congested roads
- pollution from chimneys burning waste harming ours and our children's right to breath fresh air
- proximity to housing developments and schools
- impact on the local wildlife and countryside would be very detrimental
- there would be more noise and traffic fumes

Beverley and David Amy
