Comn	nent for planning application WSCC/036/20
Application number	WSCC/036/20
Name	Janette Hall
Address	BARN ENDS, DAIRY LANE, DAIRY LANE, ARUNDEL, BN18 0PT
Type of Comment	Objection
Comments	I have read Walberton Parish Council's letter objecting to the above application and wholeheartedly support it. Visually the new structure will dominate the view from the South Downs National Park towards the sea, being more visible perhaps than Butlins at Bognor Regis. It will generate a great deal of heavy goods traffic in the area and the A257 along the coast is exceedingly busy in any case and all the roads leading North carry too much heavy traffic as it is. Additionally any emissions from the tall chimney stack will be blown North as the prevailing wind is a South Westerly. It will be unhealthy to have such emissions in such a built up area and will probably also give off smells which will be carried towards other villages and Arundel. If the wind is from the North it will affect the beaches at Clymping and Littlehampton and deter visitors to the detriment of our local economy. Additionally there is a fire hazard. We have recently already had two fires at the Westhampnett Amenity Centre which were
