Comments	An eye sore in a beautiful part of the countryside, with an extreme number of heavy good vehicles using the area should be banned. The height is obscuring the landscape. We have been targeted all round in this once beautiful area of Sussex by outrageous number of building developments. If this is allowed to continue, our countryside will be completely ruined by developers, thus not only causing traffic hold ups, but spoiling the enjoyment for the general public who live, work and visit the area.
