Comment for planning application wscc/036/20	
Application number	WSCC/036/20
Name	Karen Courquin
Address	10 Songthrush Lane Barnham West Sussex PO22 0FB
Type of Comment	Objection
Comments	This is a totally inappropriate use of the site at Ford. Reasons being: -Emissions affecting local residents -Ecological impact on local wildlife - valuable environmental landscapes of Climping, Arundel Wetlands, close to the South Downs etc -Heavy vehicular traffic in an already busy area - road infrastructure inappropriate -Visually intrusive from what should surely be protected vistas from Arundel - a tourist economy bringing a huge amount of money to the area. The site is too open and exposed for the proposed development to be shielded. Incongruous & ugly. Understand that waste must be dealt with but this is not the appropriate site for such an impactful structure.

. . .
