I cannot believe that we are suddenly being faced with the prospect of this development and major works on Ford Airfield, without any apparent consultation with local people. If 'lockdown' was the reason then planning approval should have been delayed. Hundreds of new homes, the massive Increase in traffic that will be generated on a road that is seriously congested most of the time, not to mention the pollution. All the surrounding access roads suffer from the same problem. This will profoundly effect the lives of local people as well as have a huge impact on the environment. With the proposed A27 bypass, houses at both ends of the Ford Rd and now the construction of an incinerator on Ford Airfield, it begs the question, how can we possibly absorb all this?
