Comments	<input type="text" value="I clearly object to the plans for an incinerator built at this site. Not only is this technology outdated and bad for the environment,it will also be a terrible blight on our landscape. This particular area close to Arundel and other areas that rely on visitors will be affected by the size of this terrible structure. The original plans for this site where turned down and I see no reason they should be successful this time. Please do not ruin our entire area both environmentally and physically with this awful incinerator. Regards Laura mathieu"/>
