Comments	*This proposed structure will not be in keeping with the Aesthetics of the area, it is far too large (tall).  *The existing approval for a smaller structure is a preferred option. *Having a larger facility will increase traffic to and from this site, this area of West Sussex already has issues with traffic congestion. *The concerns of the residents of surrounding villages needs to be taken into account as this will have an impact on property prices. *This proposal will be within the South Downs National Park, an area that should be managed with respect and value for the natural environment and conservation of this natural environment should take precedence.
