Collin	ient for planning application wscc/030/20
Application number	WSCC/036/20
Name	Lynn ennis
Address	COACH HOUSE, CHURCH LANE, CHURCH LANE, LITTLEHAMPTON, BN17 7QJ
Type of Comment	Objection
Comments	I Strongly object to The construction of a waste incinerator and recycling plant in this location. It is a Highly populated area. There will be a huge increase in traffic volume along a roads which are often congested now especially during rush hours. Level crossing gates that currently cause traffic delay will add to this problem. Increase in pollution not only from plant but also vehicles transporting waste to the site. The prevailing SW wind will carry fumes and noxious, possibly unknown pollutants to the surrounding villages, arundel town and littlehampton which is a highly populated area and could have an effect on future generations health. The plans of the plant indicate that it will tower over the family homes in the immediate vicinity and in a rural area will be extremely unsightly.
