Type of Comment	Objection
Comments	I would strongly object to the planning of this incinerator due to the huge impact it will have on the local environment and wildlife. The number of green areas are being eaten up with housing developments and this will ruin the beauty of the landscape. There will be an increase in the amount of traffic, including heavy goods vehicles on our already small road infrastructure, again causing a negative impact on the safety of children in the area and animals. I am also concerned over the hours of operation once this facility has been built as the noise pollution could be very damaging on the surroundings. I would strongly urge you to either carefully reconsider the location or the size of this plant.
