Comments	As a resident of Yapton I find this an appaling decision. This structure will be an eye-sore in a beautiful part of Westv Sussex, not to mention the huge impact of additional traffic on the local area. I understand the need for facilities like this, however, the location of this is very close of a very residential area and the impact of noise, traffic, smell and asthetics will be long standing and irreversible. Our beautiful country side has already been built on enough and it has to stop before it is all gone.
