Comm	nent for planning application WSCC/036/20
Application number	WSCC/036/20
Name	Mark Fisher
Address	37 songthrush lane, Barnham, PO22 0FB
Type of Comment	Objection
Comments	This kind of facility is too close to residential spaces, they should be on dedicated sites well away from all residential and communal facilities such that the proper infrastructure can be built to accommodate large amounts of traffic, and doesn't impede on an already strained system. This will also cause extra pollution, be an eyesore and generate large amounts of traffic and noise.
