Comment for planning application WSCC/036/20	
Application number	WSCC/036/20
Name	Duncan Wright
Address	18, TACKLEE ROAD, Yapton, West Sussex
Type of Comment	Objection
Comments	This application is out of all proportion to the surrounding area, especially as it will be seen from miles around and will be clearly visible from the South Downs National Park and AONB. The additional traffic it will generate will block up already congested roads and the resulting chimney fumes will be broadcast over a wide area regulated only by the wind direction and will have a detrimental effect to air quality, and to bird and insect life. All these developments are destroying the local area for us and future generations, and it is time the council's etc stood up to the planners and said that for the sake of the area, it's inhabitants both human and wildlife, and the planet, enough is enougn.
