Address	MALTRAVERS STREET, 19, MALTRAVERS STREET, ARUNDEL, BN18 9AP
Type of Comment	Objection
Comments	Environmental impact disastrous Air pollution for local residents Insufficient infrastructure to carry additional HGVs as indicated on document We have so many loopholes to jump through to protect our grade 2 Town plus the SDNP - how can this be viable if we follow the same rules and guidelines? Change the character of the area adversely Toxic fumes as byproduct of process Effect local wildlife and wildflowers Adverse effect on tourism to area The scale is too ambitious and my concern is that they reduce it by 20% to placate the masses and get it anyway! In this ugly obese and hyper inflated proposed plan the local populace and wider community lose more than is gained.
