Collin	ient for planning application wscc/030/20
Application number	WSCC/036/20
Name	Maria O'Brien
Address	PRIORY ROAD, 5, PRIORY ROAD, ARUNDEL, BN18 9EJ
Type of Comment	Objection
Comments	As residents on the south side of Arundel, just off the Ford Road, we would like to express our objections to the planning application WSCC/036/20 at Ford Circular Technology Park. Ford Road is currently overwhelmed with traffic. It is a narrow road and lorries driving down it often demolish bollards, block the traffic and come dangerously close to pedestrians. Thus, we are cut off from our town centre. The building of an incinerator on this park would significantly increase the current noise and engine pollution and exacerbate an already untenable situation. In addition, the views from the National Park must be maintained in order to support the local tourist and leisure businesses in our town and the quality of our residential environment.
