Comn	ient for planning application wSCC/036/20
Application number	WSCC/036/20
Name	Barbara Boxhall
Address	HIGH STREET, 5, HIGH STREET, CHICHESTER, PO20 2DD
Type of Comment	Objection
Comments	The size, height and scale of this proposal is completely and unecessarily huge for the location. It is not the function of the proposal I am against but fundamentally oppose such an enormous and dominating building. This would jeapordise other necessary housing development and cause a blot on the landscape higher then Chichester Catherdral and far vaster. It would be a travesty to build such a monster in this area of outstanding natural beauty and is completely out of proportion to the need to take more waste as a site in Horsham has already been approved. It also not in line with more energy efficient systems and would be a step backwards in terms of the drive to become increasingly carbon neutral. I am totally against such a venture and feel that a thorough reappraisal is needed, taking in to account the current local plans that are already underway and the devestating environmental impact it would have both visually and in terms of its pollution rating.
