Comments	I write to object to the proposed facility in Ford/Climping. The roads in this area are already at breaking point and will not be able to cope with the impact of this type of traffic. There is already the possibility of thousands of new homes in the area together with the existing housing in Climping/Ford/YaptonArundel. The extra traffic will create extra emissions together with the unknown impact of gas, smells and noxious substances? We are very fortunate to live in an area of outstanding beauty and history and have already been dealing with the effects of last winters high tides and storms with little or no support from the Environmental Agency. It feels like we are being used and ignored. There is also the impact on the residents and workforce of Ford Prison I wonder if they and their health and well being have been given any consideration in the planning of this facility? Please, please do not let this monstrosity be built near our homes and beautiful towns and villages. Thank you.
