Type of Comment	Objection
Comments	I object to these proposals on two points. 1 ,. The air flow from this incinerator is predicted to come right over Elmer Sands which will affect all of our health especially those with breathing problems. 2,. The traffic in the area especially on the A259 is already overloaded especially with all of the extra houses that have been built and planned. With all of the extra traffic especially large containers the A259 will be more of a death trap. I'm sure lots of people will be objecting on this point It's only when you live here and need to join this road at Comet Corner that you realise how many near miss accidents there are. I'm sure there must be a more rural site for this incinerator.
