Type of Comment	Objection
Comments	Am always concerned of the health consequences of such a structure when you live west of these incinerators and the "westerlies" will bring all the pollution towards littlehampton/Rustington/East Preston etcalready an elderly population with a high respiratory infections this building will just make it worse. really not acceptable in such a high population area and even more so with the number of "beach" visitors we now have due to covid 19which must be doubling the resident population?
